

Weak and Exhausted—Almost Ready to Surrender and Cease Fighting the Battle of Life.

If your blood circulates poorly and your nerves are weak; if you are despondent and discouraged, with stomach out of order, and have indigestion, sick-headache, weak muscles, and you find your day's duties almost too much for you—then there is help for you in

AYER'S Sarsaparilla

It will arouse the digestive glands to more activity, will purify your blood, help you to refreshing sleep, and give renewed force, tone, and strength to your system in general. Ayer's Sarsaparilla has benefited many thousands of tired and discouraged people and will surely benefit you.

As now made, Ayer's Sarsaparilla contains no alcohol.

There are many imitations of Sarsaparilla. Be sure you get "AYER'S."

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., U.S.A.

AYER'S PILLS, the best family laxative.

JUSTICE SEEKS A JOB AS LABORER

Nevada County Official Found in Sacramento—His Mind a Blank.

SACRAMENTO, February 25.—John Brophy, justice of the peace of Cherokee township, in Nevada county, after wandering around for two weeks, his memory gone and his faculties impaired, was found yesterday in this city at the office of the city superintendent of streets, where he had applied for a job as a laborer on the streets.

His brother, P. J. Brophy, and J. J. Meehan, a blacksmith, in this city, found him. Meehan, an old friend of Brophy, saw him a few days ago. He had heard of the man's strange disappearance, but had hesitated to say anything touching on it.

P. H. Brophy, a supervisor of Nevada county, came to this city yesterday, and, with Meehan, started in search of his brother. John Brophy recognized his brother and Meehan when they met him at the office of the city superintendent of streets, but he did not recollect any of his experiences during his two weeks' absence from home. He believed that knockouts had been administered to him at Nevada City, depriving him of his memory. Last night he was taken home.

ELOPES WITH HIS MOTHER-IN-LAW

Chicago Man Leaves a Pretty Wife and Young Child Behind.

DETROIT, February 28.—In the prosecutor's office today a young wife told of the elopement of her husband and her own mother. It is a case without parallel in the history of that office, or probably in any of the city courts.

The wife, Mrs. Bertha Wardel, an unusually pretty brunette, told of the disappearance of her mother and husband.

"It is surprising that your husband should run away and leave you," remarked Attorney Crane.

"I know, but you should see my mother," replied the young woman.

The affair occurred last August, and now the young woman is determined to secure separation from the missing man, and she asks that her little six-year-old son be given into her custody for good. In 1902 George Wardel, who is described as a handsome fellow, married Bertha Wardel in this city. The year following the mother came to their home to nurse the daughter when the latter's child was born.

Not long after this the husband became impatient to the daughter and bestowed his attentions upon the mother, but thinking that the daughter would find it finally the two disappeared at the same time.

MARINE REPORT.

By Merchants' Exchange.

Tuesday, March 8, 1910.
San Francisco—Sailed, March 7, S. S. Mexican, for Seattle.
Norfolk—Sailed, March 7, S. S. Boko, for Honolulu.

HAWAIIAN FIBRE MEETING.

The annual meeting of the Hawaiian Fibre Company was held yesterday and officers for the coming year were elected. The reports of the officers showed the company's finances to be in excellent condition and the outlook is very bright.

Last year 133½ tons of sisal fibre were marketed in nine different shipments. In each case the top price was realized against the best white Yucatan fibre. The company now has 1500 acres under cultivation, the plants on 850 acres of which are fully matured. In addition another 800 acres has been cleared ready for planting.

The company lately installed a new power engine and is now installing another deorticating machine. In the course of the year another mill will be erected on the upper lands.

The assets of the company now show an investment of \$126,000, and the treasurer was yesterday instructed to dispose of an additional block of stock to supply funds for further improvements.

The officers elected follows: Cecil Brown, president; M. P. Robinson, vice-president; Walter C. Weedon, secretary and treasurer; L. Tenney Peck, auditor.

STOCK EXCHANGE.

The following sales were reported on the stock exchange yesterday:

Panahau—10 @ 30.

Ewa—300 @ 35; 5 @ 35.125.

Wainaloa—60, 63, 30 @ 136.

McBryde—150, 350 @ 7.25.

Oahu—100, 60 @ 38.75; 50, 30 @ 38.50; 5, 5 @ 38.50.

Hawaiian Commercial—20 @ 41.25; 85 @ 41.

Hutchinson—20 @ 18.625; 5 @ 18.50.

Pioneer—10 @ 237.

Onomea—20 @ 54.

Brewery—15 @ 18.75.

BONDS.

Rapid Transit 6s—\$3000 @ 107.50; \$2000 @ 107.50.

DIVIDENDS.

The following dividends were paid yesterday:

Panahau, 20 cents a share; Wailuku, \$3 a share; Hutchinson, 15 cents a share.

PHONES IN SIX WEEKS.

Unless unexpected delays occur Honolulu will be supplied with the new phone system within six weeks' time. The conduits have all been laid, the cables have been drawn and everything now awaits the arrival of the phones and switchboards. The instruments were shipped from Chicago some time ago and unless the washouts the freight up for a long time they should be here in short order.

As soon as the new phones and switchboards arrive they will be installed, and then it will only remain for the company to cut over from the old system to the new. This is but a small undertaking. With the cutover made the company will be ready to take down the old poles and wires.

All of the phones under the new system will be on direct lines and all within the city district will be automatic. There will be absolutely no difference between the downtown service and that of Waikiki and the old annoyances which have made people more or less disgusted with the telephone system will be something of the past.

The installation of the new system will probably result in some changes in the tariff. Out-of-town phones will probably be on a toll basis, the monthly rental being reduced and long distance charges substituted to bring up the revenue. This will make it possible for the man living in the country districts to have a telephone at a reasonable rate through which he can talk with his neighbors without extra charge, but he will be forced to pay a small long distance toll when talking with Honolulu.

As soon as the new instruments arrive the company will be in a position to care for all orders and will be able to install fifty phones a day should they be called for.

OUTLOOK PROMISING.

Trade reports to Bradstreet's are rather more cheerful. Visible evidence of expansion in jobbing trade, in consonance with the advance of the season, are found in the reports that the large numbers of buyers in leading markets, especially in the west, southwest and parts of the south, have taken hold more freely, although even in the markets of the southwest, whence best reports come, there are evidences of conservatism, based largely on the high prices asked for goods. Jobbing trade at the east is slower to open up, but there is certainly more doing in jobbing at New York, while primary dealings are still classed as quiet. Inquiry by Bradstreet's at leading markets fails to substantiate the exaggerated reports of cancellations noted for some time past, and there are few signs of the widely-heralded reaction in distributive trade. Many points report no cancellations to speak of, several cities report countermands no greater than normal, and only a very few report that in a few lines, notably clothing, has there been any special effect exercised. Nor does inquiry into the widespread reports of damage to winter wheat, which have induced advances of two to three cents per bushel in speculative circles, reveal much that is definitely unfavorable. In the southwest, particularly Kansas and Missouri, there are reports that wheat on low-lying ground has been killed; but on the other hand, reports from Texas are that the wheat crop is the best in years, with good snow covering and soil in fine shape. The fact needs to be borne in mind that winter wheat is not a hot-house plant; that some deterioration always occurs over winter, but that the crop entered the winter in fine shape on a nearly record area and that snow covering has been better than for years. It may be said also that while the stock market decline and the fear of adverse legislation or of unfavorable decisions have had possibly some effect on trade commitments, the quieting down shown in trade in January and early February from the immense activity of last November and December was not much more than was to be expected. Now that the spring season is close at hand, a clearer view will shortly be had of the outlook. On the one hand, large, if not indeed record, planning of leading crops is to be looked for, while on the other, the effect of high prices upon distribution of manufactured goods is to be tested. The least favorable feature in the country's trade at present is the continued sagging in export trade in farm products, an effect easily traceable to the high prices ruling for breadstuffs, meats, animals and cotton.

Manufacturers are well supplied with orders. Western shoe men are running to capacity. There is rather less pessimism in the iron and steel trade. Reports from the Pacific Coast lumber trade are good. Railroad earnings for January (gross) show a gain of fifteen per cent over the year before.

SYSTEM WORTH TWO MILLIONS

(Continued from Page One.)

"By an electrically-driven turbine pump we propose to force this water into the city mains," said Campbell yesterday. "I have all been running to waste heretofore. Tests have been made, and it is found that the water is of fine quality. The Rapid Transit company will allow us to take it."

"A similar arrangement may be made with the Honolulu Iron Works and with the Hawaiian Electric Company, both of which are using great quantities of water which goes to waste after passing through their condensers."

Campbell has been giving a great deal of attention to the Honolulu water system, and with the completion and apparent success of the Nuuanu dam he is convinced that the city is soon to have a system of which it will have reason to be very proud.

"I could give two million dollars for the Honolulu water system today," he said and made money on the investment.

Yesterday a contract was awarded to the Honolulu Iron Works, as the lowest bidder, for 2500 feet of pipe for Alewa Heights. Tests made by Superintendent J. M. Little showed a fine pressure in the supply for Alewa, and within a very short time now that suburb will have a sufficient supply.

"The next will be pipes up Kalihii," said Campbell. "We promised the legislature to accomplish three things in connection with this water supply business. They were to install the high lift pump, construct the Kaimuki reservoir, and give Alewa Heights a water supply. All three are now safely assured."

The success of the big Nuuanu dam is now certain, according to the superintendent of public works. It has already demonstrated that facts that it was so located that it would catch water were not justified. Campbell further says that the big dam is about the cheapest dam of its size ever constructed.

PATENT APPEALS COURT.

WASHINGTON, March 10.—The music yesterday passed the big step of the court of patent appeals.

LOCAL BREVITIES.

(From Wednesday Advertiser.)

William Douding, a native of Porto Rico, has filed an application for naturalization in the federal court.

Governor Frear and Marston Campbell will leave next week for a trip to Kauai, to look into land and other matters on the Garden Island.

Ng Hee, under sentence for robbery was granted a parole yesterday by Governor Frear.

Immigration Inspector Raymond C. Brown has been granted the leave of absence asked for by him, to take rejected Portuguese immigrants home, and he will leave early next month for Funchal, taking the Portuguese with him. His leave of absence is for four months.

News of the confirmation of Henry E. Cooper as circuit judge, to succeed Associate Justice De Holt, was received by cable yesterday. Judge Cooper went to Washington as counsel in an important matter recently, but it is expected that he will return in the near future and take his place on the bench.

The Russian government, not having any regularly authorized representative in the Territory of Hawaii, has requested the French ambassador at Washington as counsel in an important matter recently, but it is expected that he will return in the near future and take his place on the bench.

The Russian government, not having any regularly authorized representative in the Territory of Hawaii, has requested the French ambassador at Washington as counsel in an important matter recently, but it is expected that he will return in the near future and take his place on the bench.

(From Thursday Advertiser.)

Mrs. V. L. Tenney, sister-in-law of E. D. Tenney, and her son, will leave for the mainland on the Lurline.

A. M. Burns, formerly a Honolulu newspaper man and later editor of the Hilo Tribune, is now on the staff of the San Francisco Examiner.

Pop Spitzer, the Hotel street merchant, leaves on the Lurline for the mainland en route east on his annual buying trip. He will be accompanied by Mrs. Spitzer.

Edwin Benner of the Henry Waterhouse Trust Company, leaves on the Lurline for San Francisco to join his wife and family who have been away for several months.

The Princess David Kawanakoa has issued invitations for a luncheon at which she will be the hostess on Saturday in compliment to Mrs. Harold Sewell, who is visiting here from her home in Maine.—S. F. Bulletin, Feb. 24.

Mrs. Campbell and daughter, mother and sister of A. N. Campbell and Eugene Campbell of the Waterhouse Trust Company, return to their home in San Francisco on the Lurline, after a pleasant three weeks' stay in Honolulu.

Mrs. Underwood, widow of Captain Underwood of the schooner Robert Lewers, who lost his life just after the vessel cleared the Sound a few months since, leaves for the Coast on the Lurline accompanied by her daughter-in-law, Mrs. Louis Underwood. Captain Underwood's wife was aboard the vessel when her husband was washed overboard.

The band will play this afternoon at Fort Shafter.

The Alameda will not arrive from San Francisco until Saturday afternoon. Sunday afternoon a public concert will take place at the Honolulu Seaside Hotel, Waikiki.

Captain Berger will leave Saturday morning for Waialeale, and will spend the day instructing the boys of the Reform School.

Investigation of the damage to the ship W. F. Babcock has resulted in a finding of damage only to the rudder. As soon as repairs are made the vessel will proceed on her voyage to Cape Town, South Africa.

The promotion committee has received by express from L. L. Woodford, assistant secretary of the Alaska-Yukon-Pacific exposition twenty-five gold medals awarded to Hawaii exhibits. A number of silver medals will follow.

Dr. J. C. MacNeill, a wealthy California doctor who spent several weeks here recently, is doing splendid promotion work for the Islands on the mainland. Several letters have been received from mainlanders telling of Doctor MacNeill's enthusiasm.

CARTER IS NOW ON THE GENERAL STAFF

Maj.-Gen. William H. Carter, U. S. Army, will leave Manila on the next transport (March 15), and will resign his duties in the war department, probably some time in April, as a member of the general staff corps. The detail has been made by the President, upon the recommendation of the secretary of war, who contemplated with favor the selection of General Crozier as chief of staff, the position to which Maj.-Gen. Leonard Wood will succeed upon the detachment from that duty of Maj.-Gen. J. F. Bell on the first of April. General Carter takes the place on the general staff made vacant by the detachment of Brig.-Gen. W. W. Wetherapoon and it is expected that in the course of the next few months Brig.-Gen. T. H. Bliss, now on duty as assistant to the chief of staff, will be relieved from duty in Washington and assigned to the command of one of the military departments. For the present Brig.-Gen. Walter Howe will command the department of the East, from which duty he will probably be relieved in a few months by Maj.-Gen. F. D. Grant.

DISPATCHING WINDJAMMERS.

SAN FRANCISCO, February 25.—Laden with a full cargo of general merchandise, the barkentine S. G. Wilder of the Matson Navigation Company is expected to go to sea today, bound for Malakoa. Within the next few days the company will dispatch two more of its sailers to the Islands. The bark Asdruc Welch will get away about Sunday for Honolulu. She will carry 10,000 cases of coal oil and a quantity of machinery, timber and construction material to be used on the government wharf at Pearl Harbor. The bark H. P. Rithet has come alongside pier No. 18 and will soon begin loading general merchandise and fertilizer for Hilo.

Count Anton Sigay, a Hungarian nobleman, is to marry Miss Harriet Kelly, daughter of the late late Marcus Kelly, the copper king.
